

Studying how life finds a way — in the most **extreme environments** known to humans

[twofrontiers.org](https://twofrontiers.org)

We build low-cost **microbial platform technologies** to solve major problems in human and environmental health

Carbon  
Capture

Coral  
Reefs

Sustainable  
Agriculture

Human  
Health

Scientific  
exploration  
from the  
**depths of the  
ocean...**

...to the **reaches  
of space**

Studying how life finds a way in  
**extreme environments**

twofrontiers

We build low-cost **micro**  
**technologies** to solve real-world  
human and environmental problems

Carbon  
Capture

Coral  
Reefs

Sustainable  
Agriculture

Human  
Health
