

Metadata Collection: KoBoToolbox

MetaSUB: Metadata protocol (surface sampling)

In this guide, you will find an explanation of the of the online data collection tool KoBoTooobox (<https://kf.kobotoolbox.org>) used for data collection by the MetaSUB Consortium.

I.	METADATA.....	2
II.	KOBOTOOLBOX.....	2
	i. Collection Survey	
	ii. Registration & Logging in	
	iii. Accessing the project	
	iv. Sharing the project	
	v. Submitting entries	
	i. Offline entries/Draft	
	vi. Following data collection	
III.	DATA COLLECTION (BY HAND/EXCEL)	9
IV.	COLLECTION SURVEY OUTLINE.....	10
V.	CONTACT.....	18

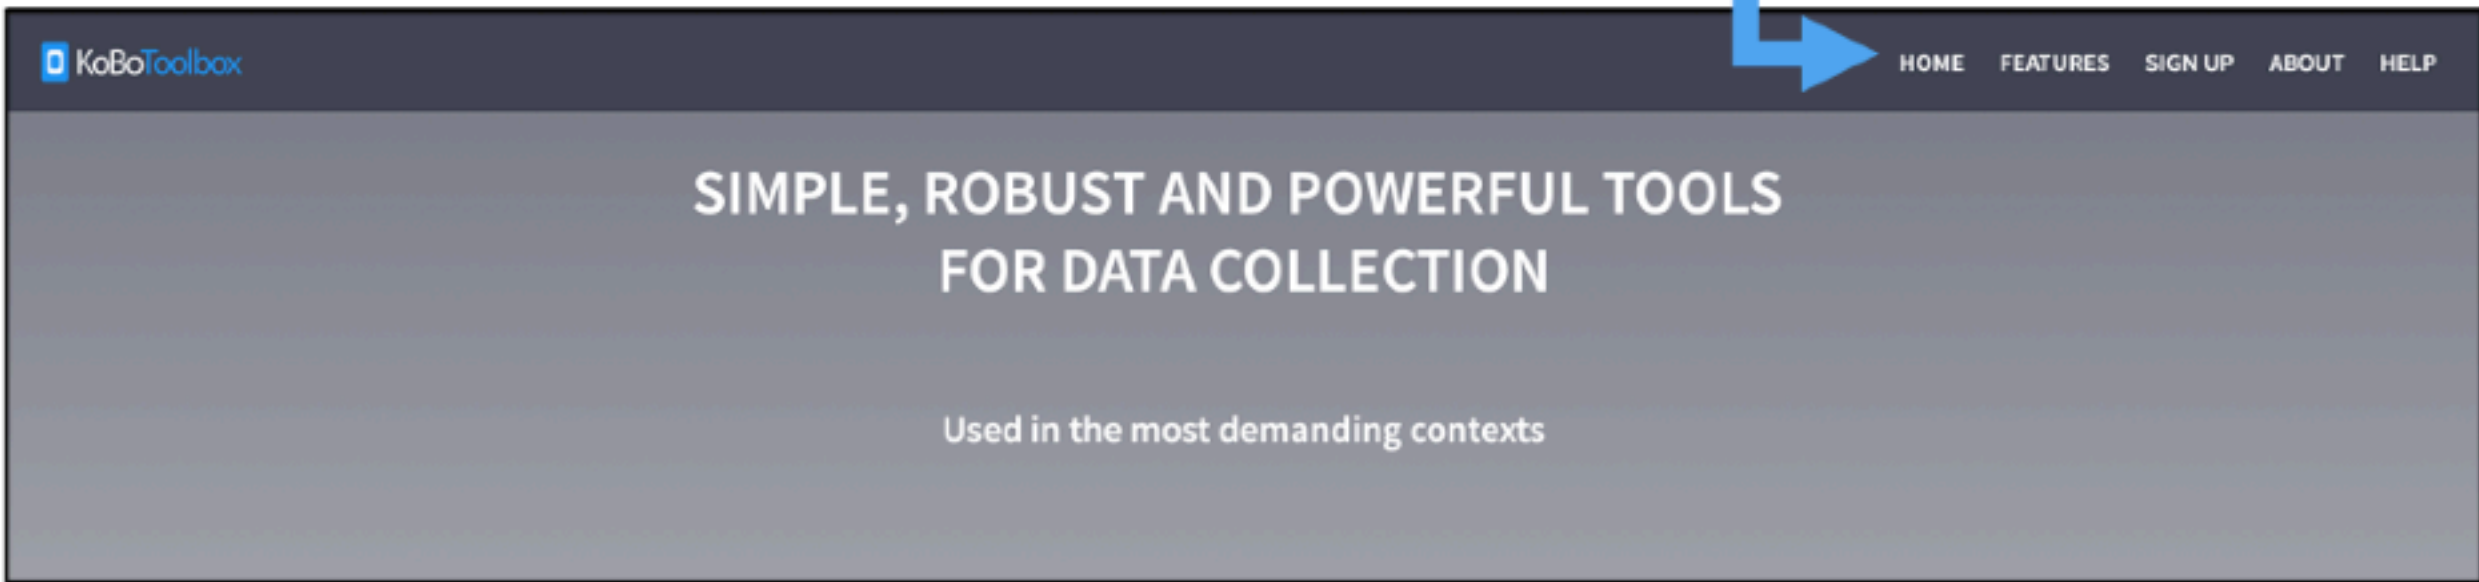

REGISTRATION & LOGGING IN

- Registration form: <https://kf.kobotoolbox.org/accounts/register/>

Follow the directions to register. Use small case for login username only. KoBoToolbox will then send you a **confirmation link** through your email account, which you **must follow** in order to complete the registration.

- Logging in

Use the link (<https://www.kobotoolbox.org>) to access KoBoToolbox on a computer. It is supported by most browsers. Click **SIGN UP** in order to find login.

Global City Sampling Day – June 20th

Please ship all samples to NYC before September 1st!
