Quick Access to SARS-CoV-2 Data!

- · Novel Severe acute respiratory syndrome coronavirus 2 RefSeq genomes, nucleotide, and protein sequences.
- · View our new SARS-CoV-2 interactive dashboard.
- How to submit SARS-CoV-2 sequences.
- Visit our new SARS-CoV-2 <u>Variants Overview</u> New!

NCBI Virus is a community portal for viral sequence data from RefSeq, GenBank and other NCBI repositories. To find, retrieve and analyze data, please select an option below.

Search by sequence

Use the NCBI BLAST™ tool to find similar viral nucleotide and protein sequences.

Search by virus

Use virus name or taxid to find viral nucleotide and protein sequences.
