

Determinants of Urban Microbial Ecology

The urban microbiome reflects interactions between people, infrastructure, climate, and the environment.

Passenger Volume Across U.S. Subway systems

New York City Subway: ~2.04 billion trips in 2024, making it by far the busiest rapid transit system in the United States.

Washington Metro Metrorail: ~166.7 million trips in 2024 across the Washington, DC metropolitan area.

Chicago “L”: ~127.5 million trips in 2024 on its heavy rail network.
